### WORK EXPERIENCE

**Web Developer (Freelance)** Jan 2020 / Present  
NeverFailOil&Gas Ltd([View website](#)) Benin, Edo State

- The goal was to create an informative and visually appealing website to promote Never Fails Oil and Gas Limited's services, increase online visibility, and attract potential clients. Engineered scalable APIs and programming languages utilizing Node.js, Google Maps, Bootstrap, HTML & CSS, and JavaScript along with a social media widget to raise your internet presence and Adobe xd for the ui design.
- Increase in website traffic by **40% in a month** from Google Search Console at the time been launch.
- The site was well optimized using good meta descriptions and keywords, also registering the company to Google Business for the increase in online visibility, now working on their company hotel website.

**Web Developer & UI/UX Designer** Jun 2020 / Dec 2022  
Deluxe Global Enterprise Benin, Edo State

- Achieved a **60% growth** in monthly revenue for the company through website redesign and maintenance. Also led the development of a user-friendly UI/UX

interface resulting in a **40% increase** in company profits.

- Developed and maintained various features using JavaScript, PHP, Tailwind CSS, and GitHub Version Control.
- Ensured competitive rates and seamless navigation for users, resulting in improved customer satisfaction and loyalty.

## PERSONAL PROJECT:

---

### 1. GitHub Finder ([View website](#))

The project aimed to create a GitHub Finder web application that allows users to search GitHub profiles and view user information, utilizing asynchronous functions, the fetch API, and dynamic JavaScript content to provide a fast, user-friendly, and interactive experience, while enhancing skills in Bootstrap, JavaScript, CSS3, Node.js, and API integration.

### 2. CreativeHub

**CreativeHub** is a platform designed to empower businesses by providing resources in digital marketing, design, programming, and more. The project emphasizes market research, competitor analysis, and an intuitive frontend interface built using PHP, Bootstrap, jQuery, CSS/SASS, and plugins like Tiny Slider, Video Player, Choices, and Flatpickr. Key features include secure messaging, a robust search system, payment processing, and a rating and review system, with plans for freelancer onboarding and verification. While the frontend is complete, the database structure and backend functionalities are planned for future development, ensuring scalability and performance.

### 3. Project Management Dashboard ([View website](#))

This project involves building a **Project Management Dashboard** using a robust tech stack, including **Next.js**, **Tailwind CSS**, **Redux Toolkit**, and **Material UI Data Grid** for the frontend, and **Node.js** with **Express** and **Prisma** for the backend. The database is powered by **PostgreSQL**, managed with **PgAdmin**, and the project leverages several AWS services, including **EC2**, **RDS**, **API Gateway**, **Amplify**, **S3**, **Lambda**, and **Cognito**, to ensure scalability and performance.

The tutorial covers end-to-end development, from setting up the environment with tools like Git, Node.js, and PostgreSQL to configuring and running the application. This comprehensive guide emphasizes creating a seamless and efficient project management solution, combining cutting-edge technologies and cloud infrastructure to meet modern business needs.

### 4. Harmony2k Blog Plus

**Harmony2kPlus** is a versatile platform comprising a Blog, Podcast, and E-commerce sections. The blog provides engaging and informative articles on diverse topics, designed to inspire and educate readers, while the Podcast and E-commerce features are under development, promising additional value in the near future.

The platform is built using **HTML**, **CSS**, **JavaScript**, **Bootstrap**, **PHP**, and **MySQL**, with a CMS dashboard featuring a modern UI design for seamless user interaction. It integrates updated plugins such as Tiny Slider, ApexCharts, and Quill, ensuring enhanced functionality and scalability for future growth.

## EDUCATION

---

### Degree, Credential

Graduation Date

University of Benin,  
Diploma in Maritime Studies & ICT

04/ 2014 – 06/ 2016

University of Benin,  
Mechanical Engineering

10/2017 – 11/2023
